

TERADA SANGYO CO.,LTD.

company brochure

Ⓞ テラダ産業株式会社

CONNECT TO THE FUTURE WITH TOTAL CONSULTING. CONNECT VALUABLE INFORMATION.

Our role as a specialized trading company goes beyond selling existing products.

We are expanding our knowledge to the world and making every effort to collect information, which leads to new value creation and product development.

■As a specialized trading company that has been in business for over 75 years

With the motto "Providing better products and valuable products to our customers at lower prices and faster ". We have earned the trust of our business partners and have steadily grown as a trading company specializing in the steel and shipbuilding industries.

■Strong relationship with suppliers-As a supplier's sales department

We provide more valuable products our customers by feeding back product knowledge and know-how to our suppliers through various cases.

■Trust from major companies such as the steel industry and shipbuilding industry

Our clients are one of Japan's largest companies, such as the steel industry that supports the Japanese manufacturing industry and the shipbuilding industry that supports logistics in trade with the world.

■Consulting sales-Responding to issues faced by customers

We will respond to the issues and needs of our customers by focusing on responding to global issues such as energy saving, rationalization, and efficiency.

Expansion of products handled and unique product development. Our motto is "Providing better products and valuable products to our customers at lower prices and faster".

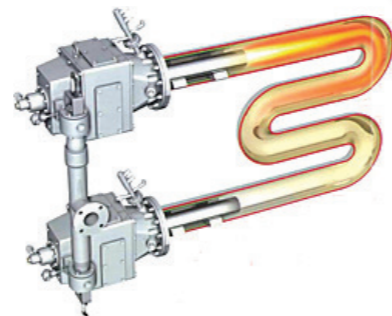

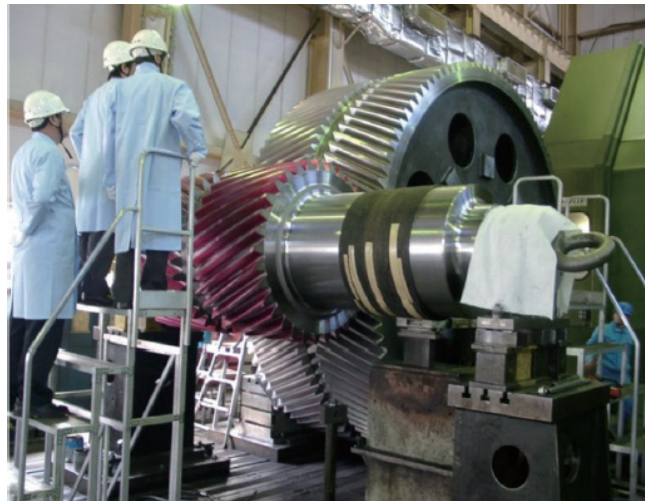

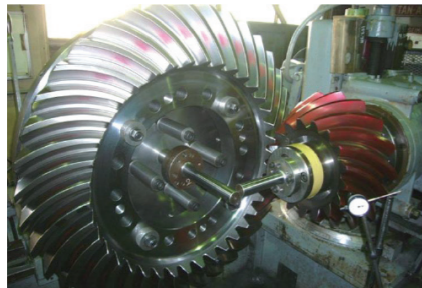

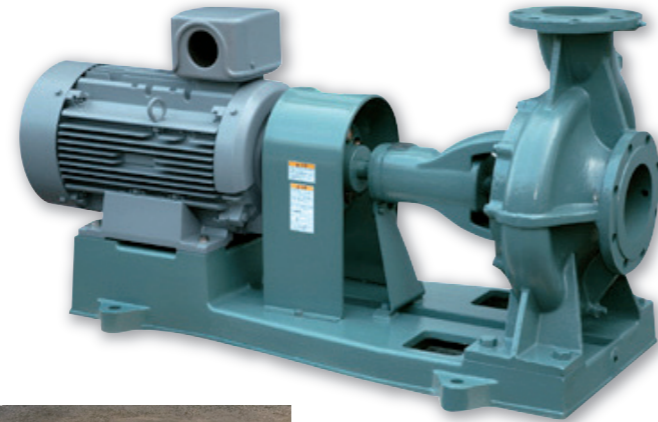

Machinery and Equipment

Machine Tools, Rolling machine, Various processing lines, Specially equipped vehicle, Electric furnace, Drying furnace, Boiler, Heat exchanger, Recuperator, Heater, Dust collector, Blower, Compressor, Crane, Hoist, Press, Crushing machine, Cutting machine, Transmission, Decelerator, Magnetic separator, Refueling device, Oil-water separator, Oil purifier, Centrifuge, Filter device, Stamping machine, Marking device, Transport device, Pneumatic / Hydraulic system, Energy saving equipment, Environmental equipment, Cooler, Stirrer, Design and manufacture of various industrial machines, Machine repair, etc.

Machine parts

Machined parts (Screw, Cutting, Polishing, Welding, Overlaying, Spraying, Plating, Lining), Cans, Casting, Forged steel products, Special steel products, Tool steel products, Bearing steel products, Carbide, Copper / Aluminum alloy products, White metal, Oiles metal, Bearing, Vehicle parts, Fittings, Gear, Wheel, Sheave, Chain, Jack, Segment, Discharge precision processing, Wire-cut, Sieves (Grizzly bar, Wire mesh, Punching net, Rubber screen), Industrial furnace parts (Burners, Skid buttons), Annealing tool (Coil spacer, Inner cover), Valves (Ball valve, Butterfly valve, Pressure reducing valve, Flow rate / Pressure control valve, Servo valve), Pumps (Submersible, Land, Slurry, Vacuum, Magnet, Chemical), Hydraulic / Pneumatic cylinder, etc.

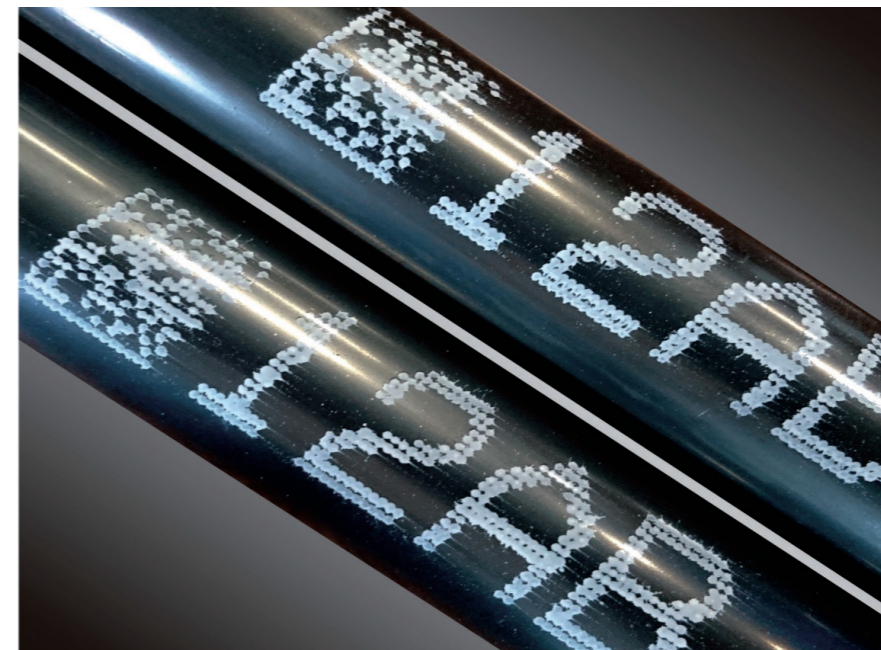

Rubber / Resin / Textile products

Rubber roll, Resin roll, Brush roll, Non-woven roll, Felt roll, PE processed product, FRP processed product, MC nylon processed product, Resin tank, Nylon hanger, Rubber sleeve, Coil stand, Rubber packing, Seal, Hose, Filter, Filter cloth, etc.

Oils and Chemicals

Cold rolling oil, Hot rolling oil, Molding oil, Rust preventive oil, Cutting oil, Lubricating oil, Grease, Cleaning agent, Pickling, Suppressant, Aggregating agent, Scale remover, Surface treatment agent, Packaging film, Rustproof film, Marking paint, Magnetic particle inspection agent, Magnetic powder, Repair materials, etc.

Electrical / Instrumentation equipment

Wireless communication device, Instrumentation control device, Non-destructive inspection machine / equipment (Ultrasonic, Magnetic, Eddy current), Transformer, Motor, Electrical wire, Cable, Electrode, Thermocouple, Thermometer, Conductivity meter, Dew point meter, Proximity switch, Microswitch, Pressure gauge, Flowmeter, Level meter, Level switch, Weighing machine, Multi-pen recorder, etc.

Jigs, Tools and Factory equipment

Various measuring tools, Cutting tools(Carbide, High speed steel, Ceramics, Diamonds, etc.) Cutting / Polishing / Grinding wheel (Resinoid, Diamond, Borazon, etc.) Abrasive, Saw blade, Blades, Three-dimensional warehouse, Work-bench, Work tools, Welder, Welding rods, Generator, Transport trolley, Aerial work platform, Lifter, Floor cleaner, Washing machine, Floodlight, Safety / Disaster prevention / Crime prevention products, etc.

Physics and chemistry equipment, Optical equipment and Test equipment

Image processing system, CCD camera device, Cold and heat resistant surveillance camera, Industrial endoscope, X-ray fluorescence analyzer, Infrared moisture analyzer, Infrared film thickness meter, Ultrasonic densitometer, CMM, Shape measuring instruments, Surface roughness meter, Hardness tester, Vibration meter, Seismometer, Gas analyzer, Thickness gauge, Projector, Clean room, Various test and analysis equipment, etc.

Others

Refractory bricks, Insulation material, Ceramic products, Fusing rod, etc.
